2. Air Conditioner bracket

TB-122

TB-103

TB-113

TB-101

TB-107

① TB-122

Item Name: TB-122

Material: Hot rolled plate([can customize](#))

Thickness:([can customize](#))

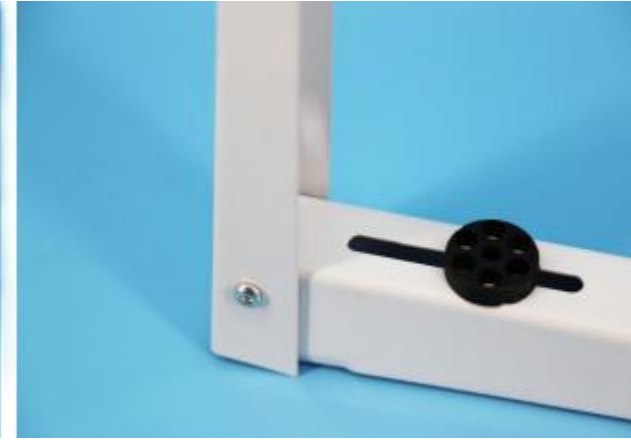

Color: White or([customize](#))

Surface Treatment: polyester powder coating

Loading weight:100-250kg

Model No.	Size(mm)	Thickness(mm)	N.W(kg)	Loading	FOB SHANGHAI
TB-122A	780*350*450	1.8mm	3.4	200kg	Please Consult
TB-122B	800*400*500	1.8mm	4.0	250kg	

② TB-103

Item Name: TB-103

Material: Hot rolled plate([can customize](#))

Thickness:([can customize](#))

Color: White or([customize](#))

Surface Treatment: polyster powder coating

Loading weight:100-250kg

Model No.	Size (mm)	Thickness (mm)	N.W(kg)	Loading	FOB Shanghai
TB-103A	365*450	1.8	2.00	150kG	Please Consult
TB-103B	450*500	1.8	2.40	200KG	
TB-103C	500*550	1.8	3.20	250KG	

It can be customized to your size thickness

③ TB-113

Item Name: TB-113

Material: Hot rolled plate([can customize](#))

Thickness:([can customize](#))

Color: White or([customize](#))

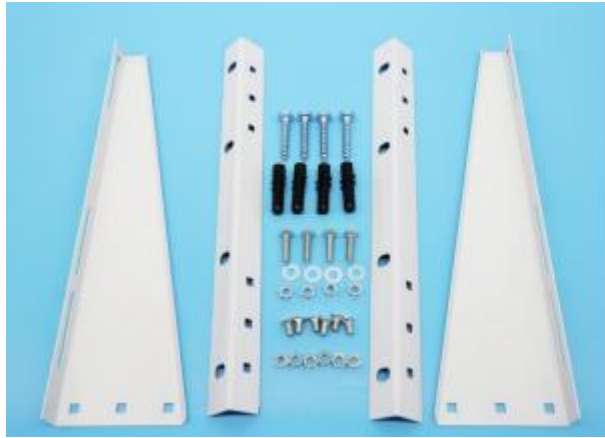

Surface Treatment: polyster powder coating

Loading weight:100-250kg

Model No.	Size (mm)	Thickness (mm)	N.W(kg)	Loading	FOB Shanghai
TB-113A	365*450	1.8	2.00	150kG	Please Consult
TB-113B	450*500	1.8	2.40	200KG	
TB-113C	500*550	1.8	3.25	250KG	

It can be customized to your size thickness

④ TB-101

Item Name: TB-101

Material: Hot rolled plate(can customize)

Thickness:(can customize)

Color: White or(customize)

Surface Treatment: polyster powder coating

Loading weight:100-250kg

Model No.	Size (mm)	Thickness (mm)	N.W(kg)	Loading	FOB Shanghai
TB-101A	460*460	1.8	2.1	150kG	Please Consult
TB-101B	500*550	1.8	3.2	200KG	
TB-101C	600*600	1.8	3.6	250KG	

It can be customized to your size thickness

⑤ TB-107

Item Name: TB-101

Material: Hot rolled plate(can customize)

Thickness:(can customize)

Color: White or(customize)

Surface Treatment: polyster powder coating

Loading weight:100-250kg

Model No.	Size (mm)	Thickness (mm)	N.W(kg)	Loading	FOB Shanghai
TB-107A	500*500	1.8	2.70	150kG	Please Consult
TB-107B	500*550	1.8	3.10	200KG	
TB-107C	600*600	1.8	3.60	250KG	

It can be customized to your size thickness

3.The Base Of External Unit

① Air Conditioner Rubber Base

② Air Conditioner Plastic Base

① Air Conditioner Rubber Base

PRODUCT ADVANTAGES

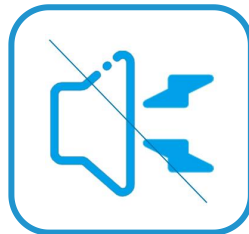

No brittle rupture when used at minus 40 degrees

QUALITY
GUARANTEE

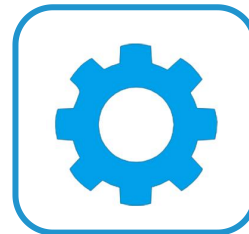

Superb
craftsmanship

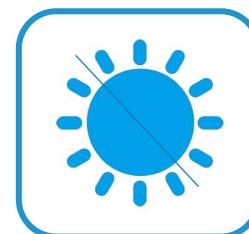

Shockproof
and
noiseless

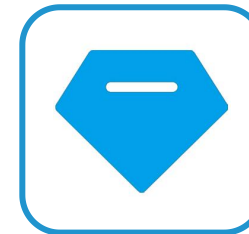

Environment
ally friendly
and durable

Easy to install

Anti-uv

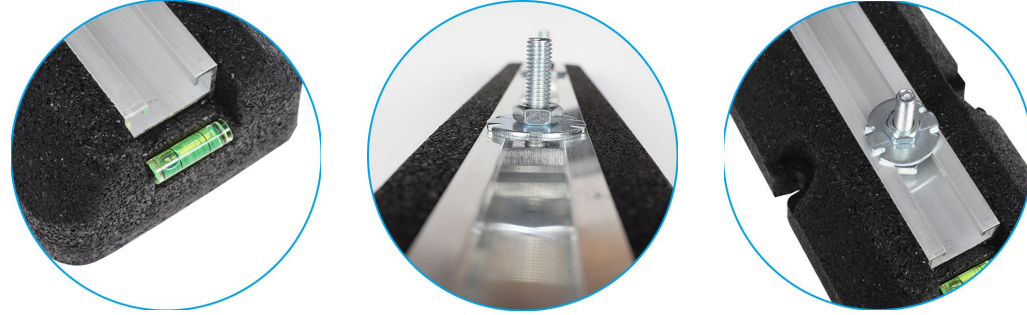

Anti-aging

EASY TO INSTALL

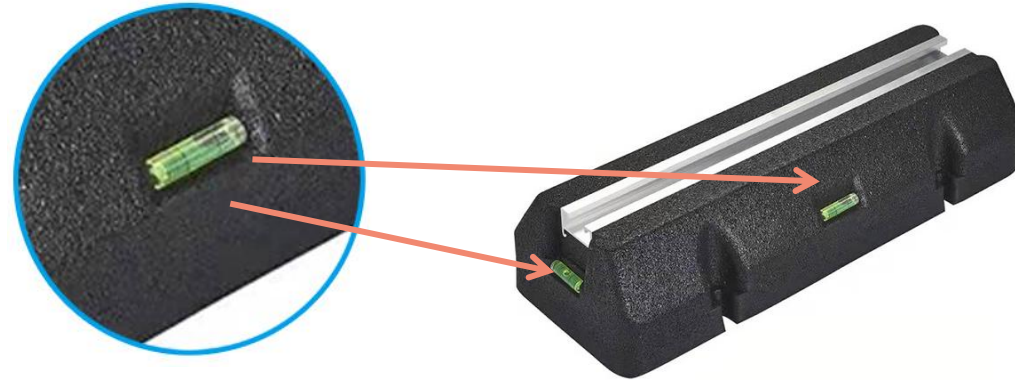

SLIDING DESIGN OF ALUMINUM GROOVE

easy to adjust the position of fixing screw hole

SPECIAL LEVEL GAUGE

Special level gauge can help to check whether the big foot is placed stably. The bubble center indicates that the big feet of the middle grid are balanced. If they are on the left and right sides, the big feet are not balanced.

GROOVE DESIGN

The bottom of the product is embedded with a groove design, which is easy to level and more shockproof.

No	Model No.	A	B	C	D	Picture	weight (KG)	Maximum load (KG)	accessories (sets of screws)
1	SXD250	250	163	98	210		5.7	120-280	2

Air Conditioner Rubber Base Function

② Air Conditioner Plastic Base

Air Conditioner Outdoor Unit Mounting Base

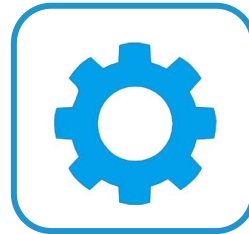

QUALITY
GUARANTEE

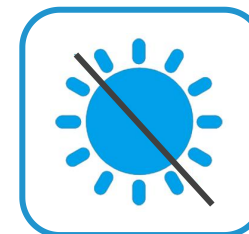

Superb
craftsmanship

Environment
ally friendly
and durable

Easy to install

Anti-uv

Flame retardant

Movable Slide

Adjustable slides, suitable for all kinds of air conditioners

Rubber

Rubber bottom, anti-slip, anti-corrosion and durable

Rubber Damper

Two rubber dampers on the bracket can reduce noise effectively.

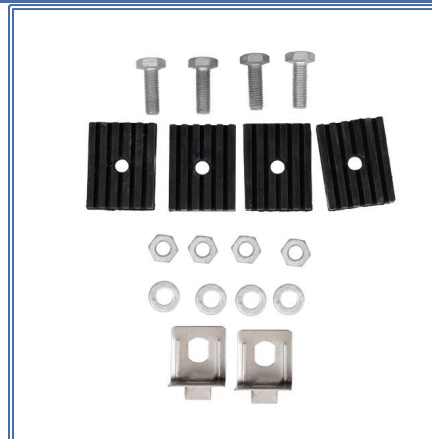

Baffle

Ventilation and heat dissipation, anti-aging

Double Slide

Double-layer slides, giving customers more choices

Components

Complete set of parts for easy installation

Air Conditioner Outdoor Unit Mounting Base Installation

Economical and Practical

The air conditioner base is made of pvc and plastic, customers can get good products.

Reduce Noise

Two rubber dampers on the bracket can reduce noise effectively.

Heavy Duty Loading Ability

The universal PVC support bracket can load up to 150kg.

Number	Model	Size	Package	Applicable AC
1	KWD-360	95mm*360mm	10 sets/box	1.5-2P
2	KWD-400	95mm*400mm	10 sets/box	3-4P
3	KWD-450	95mm*450mm	10 sets/box	5-6P
4	KWD-500	95mm*500mm	1 box/set	5-8P
5	KWD-800	95mm*800mm	1 box/set	Above 8P
6	KWD-1000	95mm*1000mm	1 box/set	Above 8P
7	KWD-1200	95mm*1200mm	1 box/set	Above 8P

6. Air Conditioner Duct

Decorative PVC Line Cover Kit for Mini Split Air Conditioner and Heat Pumps Systems, Air Conditioner Pipe Insulation Outdoor

Description of Components for AC Duct

Straight Duct

It can be cut or lengthened according to the direction of copper pipe wall and actual needs.

Flexible Duct

It is used for jumping over obstacles which are not vertical walls.

Wall Cover

It is used for copper pipe to pierce the wall directly to connect indoor and outdoor

Upright Bend

It is used for 90° vertical rotation of straight pipe wall.

Duct End

It is used for decorating the end of straight pipe

Level Bend

It is used for 90° turning angle of horizontal of straight pipe wall.

Connector

For straight pipe lengthening, it is installed at the joint of straight pipe according to need.

Expansion Tube & Screw

Fix these components to the wall.
