WHAT ARE YOU WORRIED ABOUT

1.Worried that the insulation options are too limited to meet specific needs.

2.Worried about mold and production lead time issues?

3.Unsure if the supplier has sufficient expertise to handle international standards and logistics.

4.Is the thickness of Copper Line Set accurate? Whether the tolerance of Copper thickness reach ±0.02mm?

5.Concerned about delayed replies impacting decision-making.

6.Worried about mold and production lead time issues?

7.Worried about the unenough and untimely after-sale service.

8.Frustrated with coordinating multiple suppliers for components.

9.Struggling to promote products due to insufficient resources.

ADVANTAGE

DABUND PIPE

1. Five types of insulation pipes available
2. Fastest delivery time is 10 days
3. 15 years of export experience
4. 12 years of professional freight forwarding for air conditioning parts
5. Copper pipe tolerance ±0.02mm
6. One-stop solution
7. Worry-free after-sales service
8. Global 5H professional response
9. Support for mold fee
10. Provide promotional material support

VS

Other Companies

1. Single insulation pipe
2. Delivery time over 15 days
3. Insufficient foreign trade experience
4. Copper pipe tolerance ±0.05mm
5. Single category
6. Lack of after-sales handling plan
7. Replies are not timely and unprofessional
8. Does not support mold fees
9. Does not provide promotional materials support

DEVELOPMENT HISTORY

2010
Started personal entrepreneurship, entered the refrigeration industry.

2013
Became a supplier for Turkey's TOP3 connecting pipe wholesalers.

2016
Invested in a connecting pipe factory.

2018
Entered the U.S. market, participated in the AHR refrigeration exhibition in the U.S.

2019
Purchased an independent office building, TOP1 sales on online platforms.

2021
12-person foreign trade team (certification).

2023
20-person foreign trade team, five-star merchant on Alibaba online platform, expanded into four main product lines: connecting pipes / brackets / ducts / bases.

2025
Entered 30+ countries, served 2000+ customers.

OUR TEAM

Amy
Sales General Manager

* 15 years of industry experience; served over 300 clients, including several top 10 wholesalers in the cooling industry in the United States;
* Experience exhibiting at CRH, AHR, Chillventa, and the Canton Fair;
* Successfully established a foreign trade team, participated in factory investments, and led the expansion of four main product lines.

Houston
Technical Director

* 16 years of industry experience;
* Specialized in copper pipe manufacturing, skilled in the design and manufacturing of non-standard mechanical automation equipment;
* Previously served as a senior mechanical design engineer at Danieli and Karl Mayer;
* Proficient in professional software such as AutoCAD, INVENTOR, Pro/E, CATIA, and Ansys Workbench.

Sales Team

Stella
Over 4 years of experience; served more than 80 clients; deeply involved in the U.S. market.

Aoife
Over 3 years of experience; served more than 60 clients; possesses multi-country client development and service experience.

Grace
Over 3 years of experience; served more than 60 clients; possesses excellent problem-solving skills, with extremely high customer satisfaction.

Bella
Over 4 years of experience; served more than 80 clients; deeply involved in the new product development process.

Lili
Over 3 years of experience; served more than 60 clients; skilled in assisting clients in market expansion and developing sales strategies.

Hannah
Over 4 years of experience; served more than 80 clients; high emotional intelligence communication skills, perfectly handling complex issues.

WHAT WE DO

EMBOSSED PE Line Set

Custom style

Single/Double pipes | with/without insulation | with/without kits | Copper/Aluminum

Length customization

Length can be from **3M-50M (10ft-164ft)**

Custom color

Black and white, red, blue, yellow, green, etc.

Selling Points

- **99.9%** Pure copper pipe meets UL94 listed, ASTM B280 and C12200 standard
- suitable for R410A and R22 refrigerant gas.
- higher UV(GB/T 12695) resistance, Fire resistance(-40-120℃), temperature performance(M1 or B1)
- longer lifespan over **10** years
- effectively protect worms and mice biting
- 5-layer corrugated cardboard box, **OEM&ODM**, LOGO customization
- high density(33kg/m³), small tolerance(+_0.02mm)
- **10-15** days fast delivery during peak season

Hot selling countries	North America Europe Middle East	*Annual Sales*	150*40HQ

WHAT WE DO

Rubber Copper Pipe

Custom style

Single/Double pipes | with/without insulation | with/without kits | Copper/Aluminum

Length customization

Length can be from **3M-50M (10ft-164ft)**

Custom color

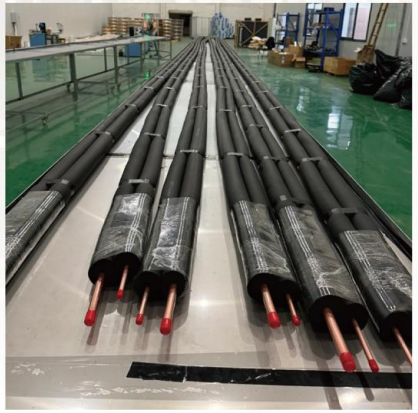

Black and white, red, blue, yellow, green, etc.

Selling Points

- Self-extinguishing
- Lower price than PE pipes
- **Green and environmentally** friendly, formaldehyde-free.
- Low thermal conductivity, energy-saving.
- **High safety** and fireproof performance.
- High moisturizing factor, **more durable**.

Hot selling countries	North America	*Annual Sales*	150*40HQ

WHAT WE DO

Golden Jacket Flex Lineset

Custom style

Single/Double pipes | with/without insulation | with/without kits | Copper/Aluminum

Length customization

Length can be from **3M-50M (10ft-164ft)**

Custom color

Black and white

●○

Selling Points

- Wide temperature range: **-55°C to +150°C**
- Enhanced weather & moisture resistance
- High mechanical resistance & durability (4x lifespan)
- Ideal for HVAC, heat pumps, solar systems
- UV-resistant & **long service life**
- No "pumping effect" – stable thermal conductivity
- Moisture-proof, maintains insulation performance
- **Easy installation**, minimal accessories needed

Hot selling countries	North America Europe Middle East	*Annual Sales*	50*40HQ

WHY CHOOSE US

Continuous innovation

Five types of insulation pipes are available.
Performance continues to upgrade

Rapid response

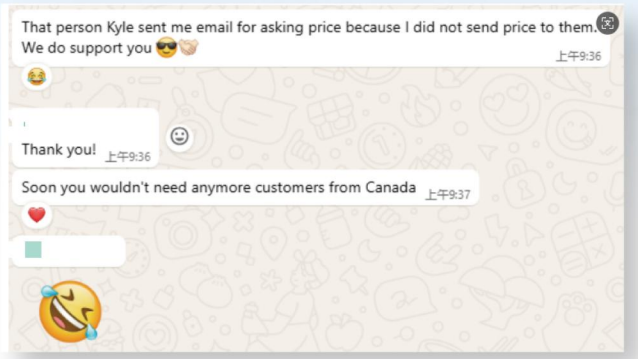

Global 5H response
Fastest delivery in 10 days

Commercial support

Mold fee support
Promotional materials support

WHY CHOOSE US

Quality

1. Certified by UL94, ASTM E84, ASTM B280, EN12735, etc.
2. Certified by ISO9001 quality management system.

Customization

Custom packaging
Custom printing for insulation pipes
Custom thickness for copper pipes
Custom lengthsCustom performance

Free services:

Free samples
Free consolidation
Free design packaging

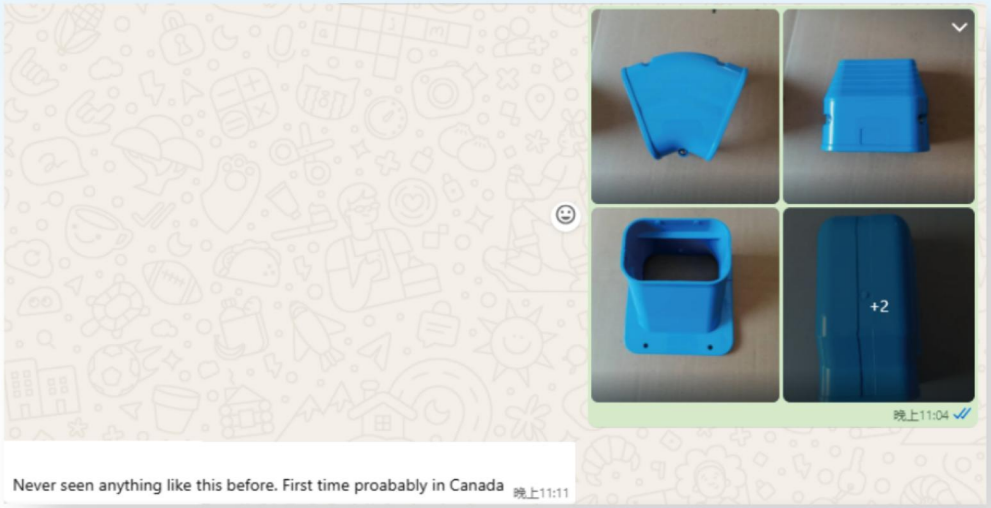

After-sales

24H provide solutions
Full compensation for quality issues

OUR CASE

Jon

From logo to exclusive brilliance: During last year's procurement festival, the client tentatively proposed a customized logo for the pipe groove. We actively responded and gradually deepened our cooperation. Starting from a small emblem, we ultimately developed four colorful 100 series pipe grooves exclusively for them, lighting up the Canadian market. The client exclaimed, 'I've never seen such a stunning design!' Since then, we have become their trusted exclusive custom partner.

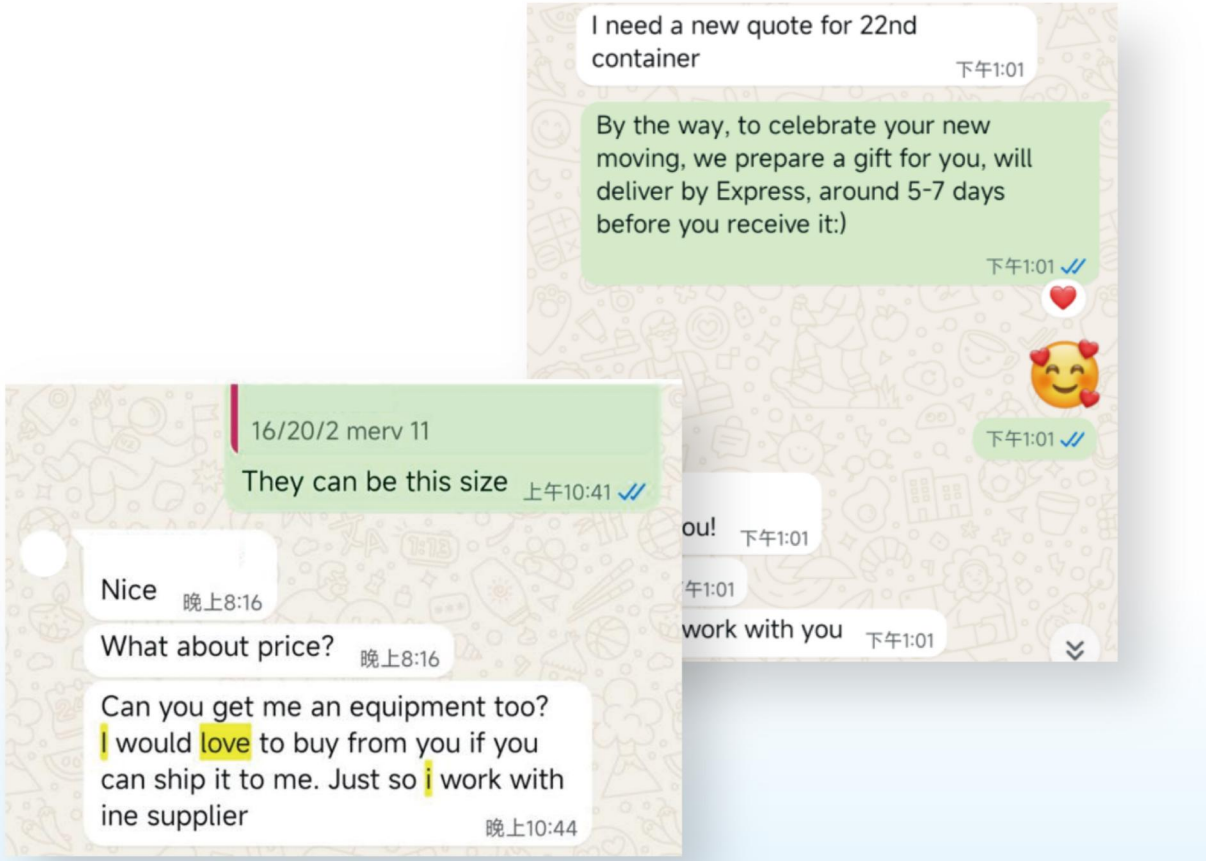

OUR CASE

Ruslan

Since August 2022, we have been collaborating with the Washington client Ruslan (Green Top Heating). Starting from sample procurement, we have accumulated a total of 23×40HQ for connecting pipes and air conditioning accessories over three years. With our high-quality products such as connecting pipes, rapid responses (like expedited delivery and air freight), and flexible payment options (25% upfront and 75% before the last week of arrival), we effectively alleviated the client's financial pressure and increased order volume: from credit card payments to an average of one container per month, with plans to increase to one container per week. The client is currently setting up branches in multiple locations in the U.S. and upgrading their storage to support expansion.

HOW TO COOPERATE

E-mail 1

1. Insulation--NBR Rubber/PE/K-FLEX TITAN
2. Copper or Aluminum
3. Twin pipes or single pipe
4. Lineset size
5. Lineset length-- 3-50m or 10-164ft
6. Lineset quantity
7. Copper thickness
8. Package-- carton box or wrapping film

1. Confirm details
2. Lineset quotation and provide lead time
3. Goods advantages
4. Offer product pictures / offer certification

DABUND PIPE

E-mail 2

1. Confirm transportation
2. Confirm price
3. Check carton design or sticker
4. Confirm payment

1. Record order into ERP system
2. Arrange production
3. Arrange carton design or sticker
4. Continuous updates during production

DABUND PIPE

E-mail 3

1. Confirm freight forwarder
2. Confirm goods quality

1. Provide pictures for inspection before shipment
2. Delivery
3. Continue to pay attention to transportation and arrival goods feedback
4. Offer instruction of Lineset
5. Offer other items in Home AC parts.

DABUND PIPE

HOW TO COOPERATE

1

Order confirmation

2

Production

A. Record into ERP system and technical section reconfirm the product specifications and processing technology

3

Quality Control

A. Test final products

B. Sampling and inspection

C. Issue test reports

4

Packing

5

Delivery

A. Check consignee information

B. Arrange shipment with forwarder

C. Support insurance for containers

6

After-sale service

A. Transportation tracking;

B. Customer receipt tracking;

C. Product use feedback;
